

RUDRA MEHTA

rudramehta1836@gmail.com — +91 9099067590 — [LinkedIn](#) — [GitHub](#) — Ahmedabad, India

EDUCATION

Nirma University, Ahmedabad 2023 – 2027 (Expected)
B.Tech in Computer Science and Engineering — CGPA: 8.38 / 10.0

HSC – Gujarat Board 2021 – 2023
Percentile: 98.99 (Top 1% statewide)

TECHNICAL SKILLS

Languages: C++, Python, JavaScript, HTML, CSS, SQL

Frameworks & Libraries: React JS, Flask, Scikit-learn, NumPy, Pandas

Tools & Platforms: Git, GitHub, VS Code, Jupyter Notebook, SQLite

Core CS: Data Structures & Algorithms, OOP, DBMS, OS Concepts

PROJECTS

IPL Final Score Predictor [GitHub](#)
Python · Scikit-learn · Pandas · NumPy

- Engineered an end-to-end ML pipeline to predict IPL T20 final scores in real-time using live match statistics from historical IPL datasets (10,000+ records).
- Trained and benchmarked Ridge Regression, Decision Tree Regressor, and Support Vector Regressor; adopted an ensemble approach achieving R^2 of 0.89, reducing MAE by 15% over the baseline.
- Performed feature engineering on 6+ match attributes — runs scored, wickets fallen, overs completed, and last-5-over performance — to maximize predictive signal.
- Evaluated models using MAE, MSE, and R^2 metrics with cross-validation to ensure consistent performance on unseen match data.

Personal Portfolio Website [GitHub](#)
React JS · HTML · CSS · JavaScript

- Designed and developed a fully responsive personal portfolio using React JS with reusable component architecture and smooth-scroll navigation.
- Implemented dark/light mode toggle, animated project cards, and an integrated contact form using EmailJS API for serverless email delivery.
- Deployed on GitHub Pages with automated CI/CD via GitHub Actions; achieved 95+ Google Lighthouse performance score.

Student Grade Management System [GitHub](#)
Python · Flask · SQLite · SQL

- Built a full-stack CRUD web application to manage student records, courses, and grades using Python Flask and SQLite with raw SQL queries.
- Designed a normalized relational database schema with 4 tables (users, students, courses, grades); implemented RESTful routes for all CRUD operations across 14 URL endpoints.
- Implemented role-based access control distinguishing Admin (full CRUD) and Student (read-only) roles, secured with Flask-Session authentication and bcrypt password hashing.
- Admin dashboard displays real-time stats (total students, courses, average grade); student dashboard auto-calculates CGPA weighted by course credits.

CERTIFICATIONS

AWS Certified Cloud Practitioner — Amazon Web Services (AWS)

[Verification Link](#)

ACHIEVEMENTS & COMPETITIVE PROGRAMMING

Competitive Programming

- Solved 100+ problems on LeetCode covering arrays, strings, trees, graphs, and dynamic programming.

Academic

- Scored 98.99 percentile in HSC Gujarat Board (2023), ranking in the top 1% across the state.
- Maintaining strong CGPA of 8.38 in B.Tech CSE at Nirma University.
